

St. Joseph Cemetery has a new Kubota!

The equipment we purchased in 1999 served us well, but it was time to invest in something new and reliable for assisting in digging graves. It also serves as an all weather vehicle during snowstorms and is an all around maintenance vehicle for St. Joseph Cemetery.

Total cost of the equipment was \$15,500. The purchase was made by taking out a very low interest loan, but with your help, we hope to pay off the loan before the term.

If you wish to donate toward this new equipment you may do so by sending your donation to the Parish Office marked: KUBOTA.

Please make checks out to: St. Joseph Cemetery.

Thank you for your consideration.
